Coronavirus Social Story

Sometimes, people get ill. When people get ill they sometimes need to stay at home to get better. This is OK.

There is a new illness called Coronavirus which is making lots of people ill throughout the world. These people may have a fever or a cough. They need to stay at home so other people do not become ill.

I can help by staying at home with my family. If I cough or sneeze I must make sure I use a tissue, and put the tissue in the bin when I have finished with it. I must always wash my hands to keep healthy.

I miss my school and seeing my school friends and staff because I need to stay at home. This is difficult for me and everyone, but I will get to see them again when I return to school. At the moment I am not sure when that will be, but I can do my school work at home in the meantime.

If I feel sad or if I have any questions I can talk to my family. They will be able to answer questions as best as they can.
